## SUPPLIER CODE OF CONDUCT

Version 23.01.05

# BIJDENDIJK

COFFEE IMPORT & EXPORT • SINCE 1843

## PURPOSE

G. Bijdendijk B.V. is committed to high standards of social and environmental responsibility and ethical conduct. G. Bijdendijk has created this Supplier Code of Conduct, hereinafter referred to as “the Code”, as an extension of our own Corporate Code of Conduct to form the cornerstone of our commitment to responsibly source our products.

We believe that by adopting responsible and sustainable business practices in our supply chain we not only contribute to the improvement of our products; it also allows us to enjoy long-term sustainable and mutually beneficial relationships with our suppliers. Therefore, we expect our suppliers to adopt the universal standards as defined in our Code, in order to minimize any adverse environment and social impact directly associated with the goods and services sourced by G. Bijdendijk B.V.

This Code defines the universal standards that we require our suppliers to adhere to when conducting business with us. The requirements laid out in the Code are based on internationally recognized standards, including the UN Guiding Principles on Business and Human Rights, the UN Global Compact Principles and the International Labour Organisation (ILO) Declaration on Fundamental Rights and Principles at Work.

## SCOPE

The term “Supplier” or “Suppliers” means any person or entity that is the source for goods or services, back to the primary production level. The Code is applicable to all workers and employees of any of those suppliers (including permanent, temporary, contract agency and migrant workers). This includes all workers providing work at a supplier location, such as under an employment agency or service provider. It also applies to any subcontractors and third-party labor agencies. We expect our direct Suppliers to support our commitment to full compliance with this Code via the development and implementation of a similar policy and risk-based due diligence process over their own supply chains.

By agreeing to adhere to this Code, Suppliers agree to adhere to any corresponding Product-Specific Standards, where applicable. If no product specific standard is applicable, Suppliers shall follow this Code or propose an auditable standard for review. We reserve the right to regularly ask Suppliers to confirm adherence to this Code.
